Leveling through Quests. Prioritize doing the Main quests first as they give your character a lot of EXP and Gold once you completed them. Once you are unable to continue doing the Main quests due to your character below the level requirement, do the Side quests, followed by the Daily quests. I recommend avoiding the Gather quests as you will be killed by higher level players.

You can tap the quest that you want to complete at the left side of the screen beside the quest tab and the game will automatically do the quest for you without you doing anything. New features will be unlocked as you level up your character. 2. Complete all the daily Events and Dungeons. Daily Quest (Solo) EXP Dungeon (Solo) – This is one of the best ways to gain tons of EXP. Can be done 2 times per day.

Arena (PK) – This is where you can battle against other players to climb up in the standings. The higher the ranking, the better the rewards (Fame and Hero Tokens). Hero Tokens can be exchanged at the Warrior Shop (Main Menu->Store->Warrior Shop). Demon Hunt Operation (Solo) – You can defeat elite monsters which will drop loot containing armor and weapons. Land of Trial – Another way of obtaining tons of EXP. Lasts for 30 minutes daily.

I highly recommend using EXP cards (200% – 300% EXP boost) from your backpack before doing the Land of Trial. Greed's Cavern (Solo) – This is one of the best ways to gain lots of Gold. Can be done once per day. Demons Tower – You may challenge the tower where you can battle against enemies for each floor. The higher the floor, the stronger the enemies are but better the rewards. Treasure Map – Can only be done if you have 'Treasure Map' items from your backpack.

Dungeon and Party Dungeon – Completing a dungeon unlocks the raid feature where you can use raid coupons to instantly complete the Dungeon. For the Daily quests, I suggest obtaining 150 activeness points per day for the maximum activeness chest rewards. 3. Complete the Time-limited Events. Ironblood Path (PK) – This mode is a 5v5 multiplayer where the team who does the most damage to the Gargoyle boss will be the winner.

World Boss – Each day, world bosses will spawn regularly in each area where you can kill them for loot (Mainly drops gear). Trial of Angels – Opens daily at 12:20. This is where you can damage the boss for rewards. Ranking will be based on how much your character has dealt damage to the boss. The higher the ranking, the better the rewards. Roland's Feast – Opens on Sunday at 21:00.

Blood Castle (Multiplayer) – You can team up with other players (increased drop rate + EXP) to defeat monsters for EXP and gems. Requires Transparent Cloak. Devil Square (Multiplayer) – You can team up with other players (increased drop rate + EXP) to defeat monsters for EXP and gear. Requires Devil Square Ticket. Do not worry if you miss out any of the Events on that day. You will be able to collect the rewards for the Events that you have missed the next day.

To collect them, tap 'Bonus' from the main menu then go to 'Retrieve'. You will need Pink Diamonds in order to collect them. 4. Check your backpack. You may obtain chests or items for your character that you might not even notice so always check your character's backpack to see all the items that you have obtained (Main Menu->Backpack). If you have gear that has a higher BP than your current gear, always replace them to give a free overall BP boost to your character.

If you have chests, straight away open these as they contain special items that will help you further into the game. Most items can only be used from the Backpack so just tap the item you want to use and tap 'Use'. Do not sell your unwanted gear as you will be using them as materials for the Horcrux feature later on. 5. Upgrade all your character skills.

Once you have gained access to your character skills, make sure to upgrade all of them to increase your BP and skill level (Main Menu->Tap the character icon->Skill). There will be a total of 9 skills that you can upgrade (8 actives + 1 passive) which requires Gold. Take note that each subsequent upgrade increases the Gold required to upgrade. When a skill level reaches level 160, you can activate its skill Ultimacy to gain an additional effect of that skill. However, you will need an additional item depending on which skill Ultimacy you choose.

6. Enhance all your gear. If you have Gems and emperor's tome, you can use those to enhance all your gear to grant additional attributes (Main Menu->Tap the character icon->Enhance). Each Enhanced level will require certain types of Gems in order to enhance. There are a number of ways to obtain different types of Gems from the Treasure, Land of Trial, Blood Castle, World Boss, Lost City, and Temple.

You can also transfer your Enhance level from your lower rank gear to a higher rank gear (Requires Diamonds). If you have Gems of Health, you can use it to append your gear (Upon reaching level 160).

The max level of a gear appending level depends on the rarity of the gear (For purple gear is level 60 and orange gear is level 80). Appending level can be transferred to a new gear automatically. Gems of Health can be obtained from the Treasure, Dungeon, Blood Castle and the World Boss. 7.

Crafting. Item Craft – You can craft both Devil Square Tickets (Devil Square) and Transparent Cloak (Blood Castle). Tap on the item to know where to obtain them. Fruit Synthesis – You can craft fruits which can be used to upgrade your character (Requires 150000 Gold, Gem of Maya and Gem of Creation. Gear Upgrade – This is where you can upgrade the rank of your gear (Requires Gold and Pink Diamonds). Archangel – Requires 3 gear of the same type.

Gem Crafting – This is where you can upgrade your gems to increase its stat effect. They can be used to Inset Gems o your gear (Enhance->Inset). 8. Wings. If you have Rock's feather items, you can use them to upgrade your character's wings to increase its BP (Main Menu->Tap the character icon->Wings). Each rank has 10 levels. Upon reaching level 10, you will need Hawk's Spark in order to move on to the next rank. Rock's feather items can be obtained from the Dungeon and the Demons Tower. 9.

Glyphs. The Glyph feature will be unlocked upon reaching level 200. To obtain Glyphs, you can get them by purchasing them from the Market or by doing the Lost Tower. Each Glyph contains its own type of stat and set bonus if multiple Glyphs of the same type is attached (Tap on any of the Glyphs to check the stats). They can also be enhanced to increase its stats further by using unwanted Glyphs as enhancement materials. Glyphs can be dismantled for materials (Only for blue rarity and above).

10. Spirit. You will automatically have a spirit for you to equip once you unlocked the Spirit feature. You can also either upgrade your spirits using Crystals or 'Star Up' them using Spirit Stones. There are multiple ways to obtain these + more spirits, by opening the spirit treasure (Main Menu->Treasure->Spirit Treasure) or doing the Spirit Ruins (Unlocks at level 220). 11. Other ways to increase your character's BP.

Assign (From stats) – Everytime your character levels up, you will gain stat points. These can be used to increase the stats for your character. You can reset your stats by tapping 'Reset' (Below level 200). Fruit (From stats) – You can use fruits to gain stats for your character. Horcrux – This is where you can use your unwanted gear as materials for Horcrux EXP. All stats will be increased every time the Horcrux levels up.

Evolve – Once your character reaches a certain level, you can evolve your character to increase their stats greatly. You will also need Emperor's Tome (Dropped from killing monsters) and Gold in order to evolve. Sigil – You will need Fame to upgrade your Sigil. Fame can be obtained from the Arena, Ironblood Path and Red Fortress. Title – This is where you can unlock and equip titles by completing their requirements. 12. Join an Alliance.

Red Packet – You can send red packets includes Gold and Pink Diamonds to your Alliance members (Requires Diamonds). Foundation Dividend and Pack – Tap on them to collect free rewards once they are ready. Donation – You can donate either Gold, Pink Diamonds or Diamonds for Alliance contribution. Make sure to tap on the glowing chests for free rewards. Skill – You can use your Alliance Contributions to upgrade different passive skills.

Alliance Shop – You can exchange your Alliance Contributions for different items. Successfully joining an Alliance will also gain access to Alliance Events and quests (Main Menu->Events) so make sure to do all of them for items, Gold and EXP. There is an 'Instill' feature where you and your chosen Alliance member perform an Instill ritual. To do so, go to 'Management' from your Alliance profile, choose an

Alliance member and tap 'Instill'. I highly suggest doing so as you and your Alliance member will gain tons of EXP from it.

13. Daily Logins and other features. Even if you do not play this game often, I would suggest to at least log in every day to collect the Login and Sign-In rewards (Main Menu->Bonus->Login/Sign-In). Also, check the Bonus feature, the Server Event and the Carnival where you can complete them for more rewards. To access the Alchemy feature, go to your backpack and tap the '+' icon at the top right of the screen. This is where you can collect free Gold, Fame and Alliance contribution daily. 14.

Check out the Store. Make sure to check out the store from the main menu where you can purchase items using different currencies. As you keep playing, you will realize that you will always run out of mana potions. You can purchase them from the Gold Shop. 15. Purchasing Diamonds. After playing this game for a while, you will realize that some of the quests are impossible to complete and the items in the Market can only be purchased by Diamonds (Not the Pink Diamonds).

If you are going to spend a lot of time in this game and wants to boost your character's BP much faster than the rest, it is best to recharge Diamonds using real money (sucks to be F2P). The game does reward you a lot if you recharge Diamonds for the first time though. Thank you so much for reading this guide. If you are new to this game, you can download this game on either IOS or Android. Loot Crate also has a special offer if you are interested in buying gaming merchandise.

Save 10% Off w/ code SAVE10 at Lootcrate.com. Charles (not Xavier) is a known rage gamer who throws controllers, flip tables and bottles... But strangely, he has never smashed a smartphone before.
